High School Diploma

Wilson High School
Portland, OR

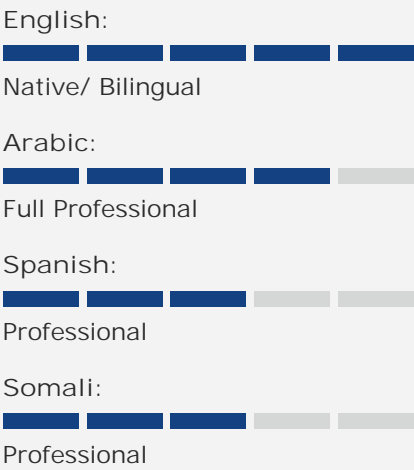

SUMMARY

Magna cum laude graduate of Lewis & Clark College with a degree in Biology and an interest in Data Analytics. For my proven history of dedication and commitment to excellence, Phi Beta Kappa inducted me into their honor society. With one year of programming language experience (R, Java, C++) and Data Science courses in college, I built upon my abilities. To grow as a professional, I completed the Google Data Analytics Certificate and am eager to apply my knowledge and experience to new challenges.

SKILLS

- Technical: Proficiency with SQL, RStudio, Spreadsheets (Excel and Google Sheets), Java, and C++
- Data Analysis: Create dashboards, visualizations, and pivot tables with multiple tools (Tableau, R, spreadsheets)
- Research: Biology major that spent a lot of time in labs, completing in-depth research projects and realistic proposals
- Communication: Transforming that research into easily understandable and visually appealing presentations for a general audience
- Attention-to-Detail: Worked as a library Circulation Clerk, maintaining an online database of books and facilitating the movement of textbooks and other reading materials between campuses
- Leadership, Initiative, Collaboration: Started and grew a youth group for young, Muslim girls in an under-served community that now hosts large events and activities and has been active for 7+ years
- Language Proficiency: English (native), Spanish, Arabic, Somali

LANGUAGES
